CT Nonprofit Child Tax Credit Coalition

CONNECTICUT CHILD TAX CREDIT (CTC)

More than 250,000 families in Connecticut applied for and received the 2022 Child Tax Rebate, making more of their income available to manage the rising costs of household essentials and child care.

NOW is the time for Connecticut to join with the rest of the nation to support families with the high cost of raising children with a permanent, refundable Child Tax Credit (CTC).

Our Ask: Create a permanent, refundable CT Child Tax Credit at \$600 per child for up to three children.

- A permanent CTC fills a critical gap—CT is now the **only state** with an income tax that does not have state-level tax policy that offers any tax break, such as a child exemption or deduction, specifically designed to ease the financial burden of raising children.
- A permanent credit gives families what they need: flexible-income that they can depend on to meet their most pressing needs including child care, rent, food, transportation, and medical expenses.
- For every CTC dollar CT residents earn, they return \$1.25 to the economy, supporting not only their families but also their local economies and communities.¹
